

JETTAPAT THONGSIMA

Software Developer

ABOUT ME

My interest in programming languages started back when I graduated and I decided to try learning about python by myself then I feel good when coding and trying to solve problems like playing puzzle game.

- LinkedIn
 - www.linkedin.com/in/jettapat-thongsima-247102253/

TECHNICAL SKILLS

- Front-End Dev: HTML, CSS, JavaScript, TypeScript, React
- Back-End Dev: Go, Node.js, Express.js, MongoDB, PostgreSQL
- Version Control with Git and GitHub
- Software Testing
 - E2E Testing with Cypress
 - Unit Testing with Jest

EXPERIENCE

- TechUp** • **Software Developer** **December 2023 - Present**
 - Successfully created and implemented a customized MDX syntax, enhancing the efficiency and readability of code for the development team. This innovation resulted in improved collaboration and accelerated project timelines.
 - Designed and developed engaging HTML and JavaScript exercises, providing hands-on learning opportunities for students. These exercises effectively enhanced their practical skills and understanding of web development concepts.
 - Collaborated in leading the development of interactive learning platforms, including code playground, code block, and content creation. These platforms enabled seamless and immersive learning experiences for users, resulting in increased engagement and knowledge retention.
